DCX160 Accessory Handset User’s Guide

Installing Your Handset

Charge the Battery
1. Unpack the handset, battery pack, and battery cover.
2. Line up the battery connector with the jack inside the base; the connector only fits one way.
3. Push the connector in until it clicks into place; tug gently on the wires to make sure the battery is securely connected.
4. Replace the base cover and slide it into place.
5. Place the AC adapter to connect the power jack on the charger to a standard outlet.
6. Place the handset in the charger with the display facing forward. If the display doesn’t light up, reseat the handset or connect the charger to a different outlet.

REGISTRATION TO A BASE

RECHARGEABLE BATTERY PACK (BT-1021)

If any items are missing or damaged, contact our Customer Care Line immediately. Never use a damaged product! Contact Uniden’s Customer Care Line: 817-858-2929 or visit our website: www.uniden.com.

Important Safety Instructions!

PS-0035 120V AC, 60 Hz 8V AC @ 300mA

Part number Capacity Talk time Standby time Battery life
Battery pack (with normal use) BT-1021 300mAh, 2.4V DC about 7 hours about 7 days about 1 year

Does the handset fit in the base cradle?
Yes Place the handset in the base. The display should say Handset Registering.
No Does the base have an LCD display?
Yes 1. On the base, open the menu and select Register Handset. The display should say Handset Registering.
2. On the handset, press and hold #0 to until the handset display says Handset Registering (about 2 seconds).
No 1. On the base, press and hold 800 when the phone is in your standby (about 5 seconds).
2. On the handset, press and hold #0 to until the handset display says Handset Registering (about 2 seconds).

After about 30 seconds, the handset display should say Registration Complete.

Test the connection
Pick up the handset and press #0/#HARK. Make sure you get a dial tone. (Press #0 to hang up.)

M... Try...

...you don’t hear a dial tone 
the display says Registration Failed
Making sure the handset is fully charged, then trying again

This equipment contains a rechargeable Nickel-Metal-Hydride Battery Warning

This product complies with FCC radiation exposure limits under the following conditions:

Compliance information

If this equipment does not operate as described in the manual, you may have a defective unit. If the FCC or your telephone company requires that you do so, you should disconnect the equipment from the telephone line interface and remove the battery before taking it to another location for repair.

FCC Part 15 Information

Paragraph 15.105(b): This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

WARRANTY DURATION: This warranty to the original user shall terminate and be of no further effect 90 days after the date of the purchase by the original user, unless otherwise provided herein, of any Product sold by Uniden, including any Product which may be distributed by a dealer or other third party, unless extended by Uniden as set forth herein. This warranty is not transferable and shall not apply to any Product purchased from an end user, dealer, or other third party.

WARRANTOR: UNIDEN AMERICA CORPORATION ("Uniden")

Uniden voluntarily participates in an R spared RRC® industry program to collect and recycle properly unwanted residential telephone equipment.

PRODUCT REIMBURSEMENT OR PAYMENT OF INCIDENTAL OR CONSEQUENTIAL DAMAGES.

This product is a personal two-way transceiver. Privacy of communications may not be ensured when using this telephone.

Sales and Service

Do not open or discard the battery and do not attempt to recharge it. Dispose of used batteries according to the instructions. Do not open or discard the battery and do not attempt to recharge it. Dispose of used batteries according to the instructions.

Note: This equipment meets the applicable industry Canada EMC requirements. The Ringer Equivalence Number (REN) marked on this equipment indicates the number of devices which can be connected to the same telephone line without affecting the performance of the equipment already connected. In conformance with Industry Canada regulations for Residential Use, this equipment contains an enclosure that supports the Ringer Equivalence Number indicated on the identification label of each terminal equipment. A telephone line terminal device shall not cause harmful interference to the operation of the protected services or any other terminal device connected to the same line.

If this equipment, or any of its parts, is returned for replacement or repair, whether for free or收费, the recipient of the returned equipment, parts, or accessories will own the equipment, parts, or accessories.

As an Energy Star® Partner, Uniden has determined that this product has met the Energy Star guidelines for energy efficiency. Energy Star is a U.S. registered trademark.
