DCX320 Accessory Handset User’s Guide

INSTALLING YOUR HANDSET

Charge the Battery
1. Unpack the handset, battery pack, and battery cover. If you need to remove the battery cover, press in on the notch and slide the cover down and off.
2. Line up the battery connector with the jack inside the base and slide the battery until it clicks into place.
3. Push the connector in until it clicks into place; tug gently on the wires to make sure the battery is securely inserted.
4. Replace the battery cover securely in place.
5. Use the AC adapter to connect the power jack on the charger to a regular indoor (120V AC) power outlet.
6. Place the handset in the charger with the display facing forward. If the display doesn’t light up, reset the handset or connect the charger to a different outlet.
7. % Charge the handset completely (about 15 hours) before using it.

REGISTERING TO A BASE

% Is the handset accessory won’t work until you register it to a base!
Compatible Bases
This handset is designed for use with Uniden’s D3280 and D3288 bases. For the most up-to-date list of which bases this handset is compatible with, see our website.

Registration Methods
