### Important Safety Instructions!

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Do not use this product near water, for example, near a bath tub, washbowl, kitchen sink or laundry tub; in a wet basement; or near a swimming pool.
- Avoid using the telephone during an electrical storm. There may be a remote risk of electric shock from lightning.
- Do not use the telephone to report a gas leak in the vicinity of the leak.
- Avoid using your telephone equipment (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
- Do not use this product in aLady's bathroom, near the kitchen sink or laundry tub, or in a wet basement.
- Use only the power cord and batteries indicated in this manual. Do not dispose of batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.

### AC Adapter and Battery Information

<table>

**Installing Your Handset**

1. Unpack the handset, battery pack, and battery cover.
2. If you need to remove the battery cover, press in on the notch and slide the cover down and off.
3. Line up the battery connector with the jack inside the base; make sure the connector only fits in one way.
4. Push the connector in until it clicks into place; tug gently on the wires to make sure the battery is securely connected.
5. Replace the battery cover and slide it into place.
6. Use the AC adapter to connect the power jack on the charger to a regular indoor (120V AC) power outlet.
7. Place the charger in the display with the charger facing forward. If the display doesn’t light up, reset the handset or connect the charger to a different outlet.

- **Check the handset completely (about 15 hours) before using it.**

**Registering to a Base**

1. On the base, press MENU/SELECT to open the menus and then scroll to Register Accessory. Press MENU/SELECT.
2. On the handset, press and hold PGM/9 until the handset display says Registering (about 2 seconds).
3. On the base, press and hold RN/0 until the handset display says Registering (about 2 seconds).
4. After about 30 seconds, the handset display should say Registration Complete.

- **Test the connection**
  - Pick up the handset and press VOLUME/RAM.
  - Make sure you get a dial tone.
  - Press RN to hang up.)

**IMPORTANT INFORMATION**

- **All features and operation for the handset are described in the user’s guide for the base.**
- **User guides for all Uniden phones are available on our website for free downloading.**
