**HOW TO INSTALL THE BATTERIES**
Your GMR1035-2 radio uses 3 AAA alkaline batteries for power. We recommend using high quality alkaline batteries:

1) Make sure your radio is OFF.
2) Remove the battery compartment door by pressing on and sliding the compartment door, and remove the cover.
3) Install 3 AAA Alkaline batteries into the battery compartment. Be certain to follow this up – symbols in the compartment. Installing the batteries incorrectly will prevent the unit from operating.
4) Replace the battery compartment door by sliding the door into place.

**USING THE RADIO**

**Talking on Your Radio**

- To turn ON channel scan:
  1) Press and hold the PTT button and speak in a clear, normal voice about 2-3 inches away from the microphone.
- To turn OFF channel scan:
  1) Press and hold the key so that the channel number displayed.

- To transmit the call tone, tap the PTT button when the call/lock key is pressed.
- To turn OFF this beep:
  1) Press and hold the call/lock key while turning ON the radio.

**USING THE RADIO**

- When you are transmitting, the tone is displayed. To avoid cutting off the front of your transmission, pause slightly after hitting the PTT button and start talking again.
- To turn OFF channel scan:
  1) When you are finished speaking, release the PTT button.
- To choose a channel:
  1) While you are receiving incoming calls, while the rec还想 is displayed.

- To exit Keylock on mode, press and hold the call/lock key.

- To transmit the call tone, tap the call/lock key. The tone will be transmitted.

**USING THE RADIO**

- Auto Squelch Feature

- Your GMR1035-2 radio is equipped with an automatic squelch system which shuts off weak transmissions and unwanted noise due to terrain conditions or if you have reached your range limit.

- Monitor Mode Feature

- Your GMR1035-2 radio allows you to listen to weak signals on the current channel at the press of a key.
- To turn ON monitor mode:
  1) Press and hold the monitor key. The tone scan will begin.
- To turn OFF monitor mode:
  1) Press the monitor key. The tone scan will stop.

- Keylock On/Off

- Press and hold the call/lock key until the "L" symbol disappears. After 3 seconds, the LCD will return to the channel display.

- To exit Keylock mode, press and hold call/lock key again.
- Note: While in keylock on mode, it will still receive transmissions.

Changes or modifications to this unit not expressly approved by Uniden could void your authority to operate this unit. Your radio is set up to transmit a regulated signal on an assigned frequency. It is against the law to alter or adjust the settings inside the radio to exceed those limitations.

To be safe and sure:

Never open your radio

Never change or replace anything in your radio except the batteries.

Use only the supplied or an approved antenna.

Please adhere to the following:

Never allow children to operate the radio without adult supervision and the knowledge of the owner.

Never use the radio with a damaged antenna. If a case is cracked, it is time to replace the antenna.

Be sure to replace the antenna when you stop using the radio.

To clean the radio, use a soft cloth.

To keep the radio dust-free, replace the battery compartment cover off overnight to ensure complete drying. Do not use the radio until the unit gets wet, turn it off and remove the batteries immediately.

Theatrical shootings, video taping or TV interference even when it is operating properly. To determine whether your radio is causing interference, turn it off. If the interference goes away, your radio is likely the cause. If not, try moving your radio away from the receiver.

Never use the radio in hazardous environments. Explosion or fire may result. Do not operate the radio near explosives.
