To decrease the volume, press the Volume (M) key again. The Volume setting indicator will appear on the display. To increase the volume, press the Volume (L) key again. The Volume setting indicator will appear on the display. To turn the unit OFF, press and hold the Power button. The volume level (OFF, 1-3) will be indicated. Level 1 is the lowest, level 2 is the medium, and level 3 is the highest.

To turn OFF channel scanning: 1) Press and hold the Scan button for 1.5 seconds. 2) Press the SCN button to exit channel scanning.
Automatic Power Save Feature

Your GMRS/FRS walkie-talkie has a unique circuit designed to dramatically extend the life of the batteries.

1. LCD Backlight

The LCD backlight will automatically turn off when any key (except for the ATT button) is pressed. The LCD display will remain on for 15 seconds before turning OFF.

2. Monitor Feature

Your GMRS/FRS/DX/CTE radio allows you to listen only to audio signals in the range of a keypress.

To turn ON Monitor:

• Press and hold the MON key for 2 seconds for continuous listening. The receiver circuit will stay on and lock in on the voice channel of the last transmission when a key is pressed. To turn OFF Monitor:

• Press and hold the MON key for 2 seconds for continuous listening. The receiver circuit will stay on and lock in on the voice channel of the last transmission when a key is pressed.
