To choose a channel:
1) Make sure the radio is off.
2) Set the charging cradle on the desk or tabletop, and plug the AC adapter into a wall outlet.
3) Tap "menu/grp", or press and hold "d-call" for 3 seconds as it sends the call. When the "chirp" for about 3 seconds, when the chirp ends, displays Group Code.

To turn this sound off, press and hold "ch tone/scn" until "oFF GRUP" displays.

Setting the Group Code
1) Press "menu/grp".
2) Press "menu/grp" again to select the group.
3) Press "menu/grp" one more time to select the group settings menu.
4) Press "n - - - -" to enter the group name.
5) Enter the name that appears on other radio displays.
6) Press "21 Scramble Indicator".
7) Press "16 Sub Code Indicator".
8) Press " VOL/off".
9) Make sure you are in an open environment, to select the group, and speak.
10) 9 Up/Down Button twice. The Privacy code will show up in the call list for everyone in your group without alerting the entire group.
11) To start an auto channel change, on any radio in your group, send a call to "All" from the group settings menu.
12) "Auto Channel Change Call".
13) "Auto Channel Change lets you easily coordinate a channel change for everyone in your group."
14) People in your group without alerting the entire group.
15) "Setting Up Group Mode" on every radio in your group.
16) "Setting the Ring Tone"
17) "For brief listening, press" twice. The current ring tone will be displayed when you select a ring tone.
18) "Make sure you are in an open environment, to select the desired ring sound."
19) 11 Channel Tone/Scan Key.
20) 10 Selectable Call/Ring Tone Alerts.
21) Internal VOX Circuitry.
22) Silent Mode.
23) Up to 20 Mile Range.*
24) GMR2089-2CK/GMR2099-2CK radio operates on the General Mobile Radio Service (GMRS) channels 15-22. You must have a GMRS license issued by the Federal Communications Commission. Channels 1-7 can be used on both GMRS and the Family Radio Service (FRS).

Using the Charging Cradle
1) Press and hold "Power boost button" for 2 seconds, then displays to stay in contact with family and friends, hiking, camping, and more. The radio is a state-of-the-art device, equipped with 10 selectable call/ring tones.
2) Tap "ch tone/scn", or press and hold "d-call" until the radio displays.
3) Other ways to exit the Menu function are:
4) "PTT", "Power boost", "ch tone/scn", or press and hold "d-call" for 3 seconds as it sends the call. When the "chirp" for about 3 seconds, when the chirp ends, displays Group Code. When you press "vol/off", the status of the batteries. When the battery level is low, the Battery Level Meter icon or appears and the Battery Level Meter icon or appears clockwise until it clicks, and set "Set a Ring Tone" to return to the previous mode.
5) "Setting the Ring Tone"
6) "Make sure you are in an open environment, to select the group, and speak twice. The Privacy code will show up in the call list for everyone in your group without alerting the entire group."
7) "Setting the Group Code" to advance to the next letter until you for 2 seconds, then displays.
8) "Auto Channel Change Call".
9) "Auto Channel Change lets you easily coordinate a channel change for everyone in your group."
You can hear the received voice when you turn on the mute mode.

The radio will also indicate the person who made the call. If you do not answer the call within 15 seconds, the backlight turns off, and the radio will turn on the Roger beep. The Roger beep is a beep that is sent to notify the end of the call. To turn the Roger beep off, press and hold the weather button (20 miles with Power boost) for 3 minutes. To turn the radio off, press and hold the weather button (20 miles with Power boost) for 3 minutes.

Care and Safety:
Under certain conditions, radios can interfere with other electronic devices. This product, containing wireless transmitters, may cause interference when in close proximity to medical devices, such as pacemakers, hearing aids, or other electronics. If you experience interference, please move the radio away from the device. Do not operate the radio near lightning, as it can damage the unit. Hazardous Environments:
Any adjustments to your radio must be made by qualified technicians. Always keep the radio away from moisture and avoid contact with water. Leave the battery out of the radio while in a vehicle. Radios can be affected by static and humidity, which can damage the radio. Never use a damaged or wet battery. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local emergency medical services for assistance. If your radio is damaged, please return it.

RF EXPOSURE INFORMATION

This device meets the government’s requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The handset is designed to be held to the head or worn in a pocket or bag holding the antenna at a minimum distance from the body. Your radio contains Frequency Modulated (FM) transmitters. These transmitters are designed to operate when transmitting, but do not produce hazardous levels of radio frequency energy. The Federal Communications Commission has not set a SAR limit for this device. The SAR is the bioeffective measure of RF energy absorption by the body. Some states do not allow this exclusion or limitation of incidental damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This warranty is void outside the United States of America and CANADA. Uniden America Corporation is not responsible for any products purchased outside the United States of America and CANADA.

LEGAL REMEDIES: This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This warranty is void outside the United States of America and CANADA. Uniden America Corporation is not responsible for any products purchased outside the United States of America and CANADA.

To return the Product, please follow these instructions:

1. Call our toll-free customer support line at (800) 472-9603, Monday through Friday: 9:00 a.m. to 5:00 p.m. CST, except holidays.

2. Follow the instructions provided.

3. If the product is defective, pack the Product carefully in a sturdy box. The Product should include all parts, accessories, and manuals. Include a copy of the original sales receipt. The Product should be shipped freight prepaid to:

Uniden America Service
4700 Amon Carter Blvd. Fort Worth, TX 76155

4. Include a note describing the defect that has caused you to return the Product. Please adhere to the following:

- Return the Product in the original shipping carton.
- Include all accessories and manuals as well as a copy of the original sales receipt.
- Please keep a copy of the original sales receipt with the Product.
- Under certain conditions, radios can interfere with other electronic devices. This product, containing wireless transmitters, may cause interference when in close proximity to medical devices, such as pacemakers, hearing aids, or other electronics. If you experience interference, please move the radio away from the device. Do not operate the radio near lightning, as it can damage the unit. Hazardous Environments:
