Your radio is equipped with a user selectable Voice Operated Transmit Device (VOD) that can be used to send a message or transmit data. The VOD feature is designed to be used with or without a headset or microphone. VOD operation is regulated by speaking into the microphone instead of speaking into the speaker.

To select VOD level:
1) Press PTT and hold VOXT on the radio for 2 seconds.

To change the Roger Beep setting:
1) Press PTT and hold MENU for 2 seconds after an incoming call within 3 seconds, to prevent the radio from automatically turning on.

To talk to others using the radio:
1) Press and hold the PTT button and speak in a clear voice into the microphone.
2) Release the PTT button to stop transmitting. To use external power, turn the radio off and on while holding the PTT button, the radio will automatically turn on for external power.

USING A HEADSET
You can use a headset (KHS-12A or KHS-12B) and a microphone (KPM-12A or KPM-12B) for hands-free operation. To use a headset, follow the instructions in the headset accessory guide. The KHS-12A headset is designed for use with this radio, the KHS-12B headset is designed for use with PL-110E. This unit has a battery level meter on the display to indicate the status of the batteries. When the batteries are very low, a low battery icon appears on the display. Replace the battery pack immediately if you see the low battery icon. The NiMH battery pack is designed to operate for 16 hours and remove the radio from the charging cradle after charging. To charge the NiMH battery pack immediately or if you are using alkaline batteries, set the charging cradle on the desk or tabletop, plug in the cigarette lighter jack and to a standard 120V AC wall outlet. DC 9V jack of the radio and to a cigarette lighter power source. Be certain to follow all instructions for using the supplied power cord. Important: This unit has a battery level meter on the display to indicate the status of the batteries. When the batteries are very low, a low battery icon appears on the display. Replace the battery pack immediately if you see the low battery icon.

Power failure is very low, you cannot operate the radio using external power. Allow the battery to recharge for 8-14 hours before turning the power on. If you are on a channel where you want to turn on power while the power is off, the radio will automatically turn on for external power.

INSTALL THE BATTERY
1) Press the tab at the bottom of the battery compartment door to remove the cover. 2) Set the charging cradle on the desk or tabletop, plug in the cigarette lighter jack and to a standard 120V AC wall outlet. DC 9V jack of the radio and to a cigarette lighter power source. Be certain to follow all instructions for using the supplied power cord. Important: This unit has a battery level meter on the display to indicate the status of the batteries. When the batteries are very low, a low battery icon appears on the display. Replace the battery pack immediately if you see the low battery icon.

BRING THE UNIT TO THE DASHBOARD OR DESKTOP
1) Place the radio on the dashboard or tabletop, plug in the cigarette lighter jack and to a standard 120V AC wall outlet. DC 9V jack of the radio and to a cigarette lighter power source. Be certain to follow all instructions for using the supplied power cord. Important: This unit has a battery level meter on the display to indicate the status of the batteries. When the batteries are very low, a low battery icon appears on the display. Replace the battery pack immediately if you see the low battery icon.

The radio operates on the General Mobile Radio Service (GMRS) frequencies when using the supplied battery pack. Channels 1-7 have a typical range of up to 30 miles. Channels 8-14 have a typical range of up to 8-14 or operation on any channel in Canada. If you are using a GMRS license issued by the Federal Communications Commission to legally use these channels. For licensing and application forms, visit the FCC website (www.fcc.gov). You can contact the FCC direct at 1-888-225-5322. The LCD Backlight automatically turns ON when any key (except the PTT button) is pressed. The LCD display will turn off after 10 seconds for battery saving mode. The radio is still able to receive transmissions in this mode.

BUILD-IN MICROPHONE
Your radio is equipped with a built-in microphone. This microphone is designed to work well with talking rate of 140-160 words per minute. If you want to listen to other users, you can do so while operating the radio.

Choosing a Channel
The LCD backlight automatically turns ON when any key (except the PTT button) is pressed. The LCD display will turn off after 10 seconds for battery saving mode. The radio is still able to receive transmissions in this mode.

LABEL the KEYS
1) Press and hold CALL/LOCK/向上 key. These functions are not affected by Key Lock. 2) Press CALL/LOCK/向下 key. 3) Press CALL/LOCK/左 key. 4) Press CALL/LOCK/右 key. 5) Press VOL/UP. 6) Press VOL/DOWN.

Automatic Power Save
Your radio is equipped with a hands-free channel selector. You can turn the radio on or off by pressing any key, without holding the PTT button. Your radio is equipped with a hands-free channel selector. You can turn the radio on or off by pressing any key, without holding the PTT button.

Lithium-Ion batteries pack or 3AA alkaline batteries (not included). To install the NiMH battery pack:
1) Close the battery compartment door. 2) Place the NiMH battery pack in the compartment. 3) Insert the NiMH battery pack into the battery compartment. Be certain to follow all instructions for using the battery pack. Installing the battery pack incorrectly will prevent the unit from operating.

Cold Start Indicator
If you use the rechargeable NiMH battery pack, two buttons can be used directly or charged using the supplied ac cord. To charge the battery pack:
1) Connect the AC adapter (KAC-120J) to DC 9V jack of the radio and to a cigarette lighter power source. 2) Set the charging cradle on the desk or tabletop, plug in the cigarette lighter jack and to a standard 120V AC wall outlet. DC 9V jack of the radio and to a cigarette lighter power source.
REGULATORY INFORMATION

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. (See www.uniden.com for current hours of operation.)

RF EXPOSURE INFORMATION

WARNING! Read this information before using the radio. In August 1996 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The FCC requires transmitters to meet the following two conditions:

1. To use the device properly to operate the radio transceiver to insure safe operation. Please follow the instructions. Use only the supplied or an approved antenna. Unauthorized antennas or modifications to the antenna on this equipment could impact call quality, damage the radio, or result in violation of FCC regulations. Do not use the radio with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for a replacement antenna.

Handheld Operation (RF): This device was evaluated for typical handheld (held close to the body) operation. Use of the radio near your body could result in interference to the radio. Under certain conditions, radio interference with the radio could result in interference to the radio. Your radio is certified for outdoor use. Do not use your radio near any other radio, TV, or other electronic equipment.

Body-Worn Operation: For body-worn operation, use the supplied accessories. (ac4) Accessory accessories are included in this package, any additional or optional accessories are not required for compliance with the guidelines.) Third-party accessories (_elelectro-magnetic interference or design errors) should be avoided as they might not comply with FCC RF exposure guidelines. For more information about RF exposure, please visit the FCC website at www.fcc.gov.

THREE YEAR LIMITED WARRANTY

If your Uniden radio fails due to a defect in materials or workmanship under normal and proper use, Uniden will repair or replace it free of charge. Repair service is limited to any other cost (except shipping and handling) incurred by you for warranty service.

WARRANTOR: UNIDEN AMERICA CORPORATION ("Uniden")

ELEMENTS OF WARRANTY: Uniden warrants, for three years, to the original retail owner: (a) the radio, for defects in materials and workmanship; and (b) the batteries (3 AAA Alkaline Batteries (BT-1028) or Ni-MH Battery Pack (BT-1028)) for defects in materials and workmanship. Batteries are covered only for a period of three months from the date of purchase.

- Batteries: Uniden voluntarily participates in the RBRC® (Recycling Corporation.) Ni-MH battery recycling in your area. (RBRC® is a registered trademark of the Rechargeable Battery Recycling Corporation.) Please call 1-800-8-BATTERY for information on batteries within the US.

PACKAGING: Your radio was packed in the original packaging. Please retain it for future use.

Owner's Responsibilities: As part of our commitment to product quality, we use a continuous self-consistency review process. If you ever find a problem, please bring it to our attention. We need to know about the problem in order to improve our products.

As your Uniden dealer, we are unable to warranty this product. Please return the radio to the place where you purchased it. Uniden will be happy to help you, but we cannot warranty a product purchased from someone other than an authorized Uniden service center for a defect or malformation covered by this warranty. To obtain warranty service, please contact the Uniden dealer where it was purchased or your local Uniden Accessory Dealer. (See www.uniden.com for current hours of operation.)

LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. THIS WARRANTY DOES NOT COVER OR PROVIDE FOR THE REIMBURSEMENT OR INDEMNIFICATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES. Some states do not allow the exclusion of incidental or consequential damages so this exclusion may not apply to you. LEGAL REMEDIES: To the extent permitted by law, all implied warranties are limited to a period that is consistent with the law.
