Review the following tips before charging your radio.

**CAUTION:** Do not attempt to recharge alkaline batteries. Doing so can create a safety hazard or damage the radio.

1. **Installing the Batteries**
   - Each radio uses 3 AA rechargeable NiMH batteries (included).
   - To install the batteries:
     1. If installed, remove the belt clip.
     2. Remove the battery compartment door by pressing on the latch and releasing the tabs. Remove it.
     3. Install the supplied 3 AA NiMH batteries into the battery compartment. Be certain to follow the + and - symbols in the compartment. Inserting the batteries incorrectly will prevent the radio from operating.
     4. Replace the battery compartment door.
     5. Replace the belt clip if necessary.
     6. Repeat for each unwanted noise. Note: You may also use 3 AA non-rechargeable alkaline batteries in each radio. However, do not mix NiMH and alkaline batteries in each radio.

2. **Using the Menu**
   - Press the **MENU** key to access the three menu options.
     1. **Privacy Code (121 codes).** The privacy codes displayed underneath the channel number on the screen.
     2. **Call Tone (10 call tone options plus OFF).**
     3. **VOX (5 levels plus OFF).**
   - Each menu option is discussed later in the manual.

3. **CH/LOCK**
   - Press and hold the **CH/LOCK** key to turn the radio ON. Silent mode is entered. Press the **CH/LOCK** key again to turn the radio OFF.
   - Press **CH/LOCK** to return the radio to its normal state after about 5 seconds.

4. **PTT**
   - Press **PTT** button to transmit on that channel.
   - To transmit the call tone, press the **PTT** button followed by the **CALL/MON** key for 2 seconds again. **PTT** does not display.
   - To turn **ON Monitor Mode:**
     1. Press and hold **PTT** button and speak in a clear, normal voice about 3-3.5 inches away from the microphone on the earbud cord. (The icon displays while you are transmitting. Pause slightly after pressing PTT and then press again to start talking to prevent cutting off your transmission.)
     2. When you are finished speaking, release the **PTT** button. You can now receive incoming calls while receiving the **PTT** icon display.

5. **MON**
   - Press **MON** to enter Monitor Mode. The radio allows you to listen for weak signals on the current channel at the press of a key.
   - To turn **ON Monitor Mode:**
     1. Press and hold **CALL/MON** for 2 seconds. On a channel that does not have activity, you will hear only an open-squelch hissing noise and **MON** display.

6. **Silent Mode**
   - Silent mode turns off all key beeps when it is turned on. It does NOT mute call or voice signals received.
   - To change Silent mode status (OFF or ON) by pressing **CALL/MON** on the radio. **Silent mode is off and key beeps sound. (Default)**
   - To change Silent mode status (OFF or ON) by pressing **CALL/MON** on the radio. **Silent mode is off and key beeps sound. (Default)**

To clean the radio, use a soft cloth dampened with water. Do not use cleaners or solvents because they can cause the body of the unit to leak inside, causing permanent damage. Use a dry, lint-free cloth to clean the battery contacts. Do not submerge the unit in water, soaps, or solvents. If it gets wet, turn it off and remove the batteries immediately.

Dry the battery compartment with a soft cloth to minimize potential water damage. Leave the battery compartment cover off overnight to ensure complete drying. Do not use the radio until the unit is completely dry.

Your radio might cause TV or radio interference even when it is operating properly. To determine whether your radio is causing the interference, turn it off. If the interference goes away, your radio is causing it. Try to eliminate the interference by moving your radio away from the receiver. If you cannot eliminate the interference, the FCC requires that you stop using the radio.

Care and Safety

RBRC INFORMATION

As part of our commitment to protect the environment and conserve natural resources, Uniden voluntarily participates in an RBRC® industry program to collect and recycle used Ni-MH batteries within the US.

Please call 1-800-BATTERY for information on Ni-MH battery recycling in your area. (RBRC® is a registered trademark of the Rechargeable Battery Recycling Corporation.)

To be safe and sure:

• Never open your radio's case.
• Never change or replace anything in your radio except the batteries.

FCC RF EXPOSURE

WARNING! It is up to the user to properly operate the radio transmitter to insure safe operation. Please adhere to the following:

Do not use the radio with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for a replacement antenna.

Hand-Held Operation (Held-to-Face)

This device was evaluated for typical hand-held (held- to-face) communications with a 1 inch spacing from the front of the radio. For hand-held operation, the radio should be held 1 inch from the user's face in order to comply with FCC RF exposure requirements.

Body-Worn Operation

This device was evaluated for body-worn operations with the supplied belt-clip accessory. (All necessary accessories are included in the package; any additional or optional accessories are not required for compliance with the guidelines.) Third party accessories (unless approved by the manufacturer) should be avoided as these might not comply with FCC RF exposure guidelines. For body-worn operation, this device has been tested and meets the Industry Canada RF exposure guidelines when used with Uniden accessories supplied or designated for this product. Use of other accessories may not ensure compliance with Industry Canada RF exposure guidelines.

Fonctionnement de l'appareil, lorsque porté sur le corps. Cet appareil a été testé et est conforme aux normes d'Industrie Canada et approuvé pour le port sur le corps à l'aide des accessoires inclus avec cet appareil. L'utilisation d'accessoires ne respectant pas les exigences d'exposition RF d'Industrie Canada doit être évitée.
