Your radio is equipped with a user selectable Voice Operated Transmission feature. The VOX feature is designed to be used with a headset with a microphone. Transmission is initiated by speaking into the microphone instead of pressing PTT.

To select VOX level:
1. Press MENU, ▲ to reach the VOX setting and VOL key to increase or decrease the channel number displayed.

Note: Channels 1-7 have a typical range of up to 40 miles. Channels 15-22 have a typical range of up to 20 miles. You can see which channel is active by looking at the Battery Display. The display is white on high power channels, and the red battery icon is displayed when on low power channels.

Talking on Your Radio
To talk to others using the radio:
1. Press and hold the PTT button and speak in a clear, normal voice about 6-8 inches from the microphone. The red (GMR4055/4060) or yellow (GMR4088) battery icon on the battery pack immediately. If you are using alkaline batteries (GMR4055 and GMR4060 models only), you must replace the alkaline batteries in order to continue using the radio.

Adjusting the Sound (Key Beeps)
Your radio emits a beep each time one of the keys (except for the PTT/VOX button) is pressed. To turn this sound off, press and hold CALL/LOCK while turning the radio OFF. Repeat to turn the sound back ON.

Channel Scan
Your radio has 22 channels and 121 Privacy Codes you can use to talk to others. In order to speak to someone, each of you must use a different privacy code. The radio will make a voice announcement when a channel is active.

To turn off channel scan:
1. Press and hold the CALL/lock button and the VOL key to display “Normal” setting.
2. Add the selected weather channel for alerts when not communicating.
3. The system functions as it does in standard mode but also monitors the selected weather channel for alerts when not communicating. While using the Weather Radio, you are not able to receive FRS communications.

Note: To prevent unwanted silent alerts, be sure to use a Privacy code whenever you use the Silent mode feature. You can hear the received voice when you turn on channel scan and an active channel is selected during Silent mode.

Setting Silent Mode
If you receive an incoming call while Silent mode is on and do not respond, the radio will be displayed on the Missed Call list.
1. Press and hold VOL/CH 1-5) blink. The icon stops blinking and disappears.
2. To lock the keypad, press and hold CALL/LOCK again. (disappears.

Automatic Power Save
Your radio has a circuit designed to dramatically lengthen the life of the batteries. If there is no transmission or an incoming call within 30 seconds, the radio will switch to Power Save mode. The radio is still able to receive transmissions in this mode.

The LCD backlight automatically turns off when any key (except the PTT button) is pressed. It stays lit for 10 seconds before it automatically turns off.

Choosing an Emergency/Weather Channel
There are 7 NOAA channel frequencies available and these frequencies are common between the US and Canada. You need to know what frequency is being transmitted in your location.
1. Press MENU, ▲ to select the call area and WX/MON key to exit the Menu until selecting to “Normal” mode.
2. Press the desired Weather Channel.
3. Your radio can receive weather broadcasts from the NOAA National Weather Service. When the Weather Radio Alert mode, your radio will automatically monitor the selected weather channel for alerts when not communicating. While using the Weather Radio, you are not able to receive FRS communications.

To turn off the Weather Radio mode, remove the battery pack. Installing the batteries/battery pack incorrectly will prevent the radio from operating.

Flexible & Weather Resistant
Your radio is equipped with a flexible and weather resistant rubber boot that can be used for automatic voice transmissions. The VOX feature is designed to be used with a headset with a microphone. Transmission is initiated by speaking into the microphone instead of pressing PTT.

**FCC RF EXPOSURE**

As part of our commitment to protect the environment and conserve natural resources, Uniden voluntarily participates in an RBRC® industry program to collect and recycle used Ni-MH and Li-Ion batteries within the US. Please call 1-800-BATTERY for information on Ni-MH and Li-Ion battery recycling in your area. (RBRC® is a registered trademark of the Rechargeable Battery Recycling Corporation)

**FCC RF EXPPOSITION**

**CTCSS Chart (Hz)**

**FCC PART 15 IC COMPLIANCE**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

**IC COMPLIANCE**

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:
1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation.

**MAINTENANCE**

To be safe and sure:
1. Never open your radio's case.
2. Never change or replace anything in your radio except the batteries.

**Care and Safety**

- Use a soft cloth dampened with water. Do not use solvents or solvents to clean the battery contacts. Do not submerge the unit in water. If the unit gets wet, turn it off and let the batteries immediately.
- Dry the battery compartment with a soft cloth to remove moisture from the battery contacts. Be sure that the battery contacts are dry. Do not use the radio until the unit is completely dry.
- Your radio might cause TV or radio interference even when it is operating properly.
- Do not use a damaged antenna. If a damaged antenna transmitter to insure safe operation. Please adhere to the following:
- Do not use the radio near unshielded electrical blasting equipment. Construction crews often use remote control RF devices to set off explosives.

**Hazardous Environments**

Do not operate the radio in hazardous environments. Explosion or fire may result. Do not operate the radio near unshielded electrical blasting caps.

- Under certain conditions, radios can interfere with blasting operations and may cause an explosion. Turn your radio OFF to prevent accidental transmission when in a blasting area or in areas posted: "Turn off two-way radio."

**PROCEDEUR POUR OBTENIR LE PERFORMANCE DE LA GARANTIE:**

- If, after following the instructions in the owner's manual you are certain that the Product is defective, pack the Product carefully (preferably in its original package). Disconnect the battery from the Product and separately secure the battery in its own separate packaging within the shipping carton. The Product should include all parts and accessories originally packaged by the Product. Include evidence of original purchase and a note describing the defect that has caused you to return it. The Product should be shipped freight prepaid, by traceable mail, to:

  **Uniden America Corporation**
  C/O Saddle Creek
  434 Hermes Creek Road, Suite 100
  Roanoke, TX 76262

© 2019 Uniden America Corp.  All rights reserved.

**ONE-YEAR WARRANTY**

**IMPORTANT:** SAVE YOUR RECEIPT! Evidence of original purchase is required for warranty service.

**WARRANTOR:** UNIDEN AMERICA CORPORATION ("Uniden")

**ELEMENTS OF WARRANTY:** Uniden warrants, for one year, to the original retail owner, the Uniden Product to be free from defects in materials and workmanship only with the limitations or exclusions set forth below:

**WARRANTY DURATION:** This warranty to the original user shall terminate and be of no further effect 12 months after the date of original retail sale. The warranty is invalid if the Product is (A) not maintained or not maintained as necessary, or (B) modified, altered, or used as part of any conversion kit, sub-assemblies, or any configurations not sold by Uniden, (C) improperly installed, (D) serviced or repaired by someone other than an authorized Uniden service center for a defect or malfunction covered by this warranty, (E) used in any conjunction with equipment or parts or as part of any system not manufactured by Uniden, or if (F) installed or operated by anyone other than as detailed by the owner's manual for the product.

**STATEMENT OF REMEDY:** In the event that the product does not conform to this warranty at any time while this warranty is in effect, warrantor will either, at its option, repair or replace the defective unit and return it to you without charge for parts, service, or any other cost (except shipping and handling) incurred by warrantor.

**LEGAL REMEDIES:** This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This warranty is void outside the United States of America and Canada.

**PROCEDURE FOR OBTAINING PERFORMANCE OF WARRANTY:** If, after following the instructions in the owner's manual you are certain that the Product is defective, pack the Product carefully (preferably in its original packaging). Disconnect the battery from the Product and separately secure the battery in its own separate packaging within the shipping carton. The Product should include all parts and accessories originally packaged by the Product. Include evidence of original purchase and a note describing the defect that has caused you to return it. The Product should be shipped freight prepaid, by traceable mail, to:
