### GMR5088-2CKHS, GMR5095-2CKHS

#### Contents
- **Introduction**
- **Specifications**
- **Installation**
- **Operation**
- **Accessories**
- **Appendix**

#### Installation

- **Headset Jack**
- **Push-to-Talk**
- **Battery Level**

#### Features

- Channel Up/Down
- **Monitor**
- **VOX Indicator**
- **Up to 50 Mile Range**

#### Accessories

- **AC Adapter – #AD-0001**

#### Notes

- Make sure to turn the radio OFF before attempting to operate it.
- If BOOST, PTT or VOX is continuously used, battery level is low, the battery level meter icon appears, and the radio will automatically exit Private mode.

#### Setting Silent Mode

- **Press and hold Menu/Power** or **BOOST** or **PTT** to turn off Monitor mode:
  - The current channel flashes.
  - Use the radio in Standard (not Group) mode.

#### Setting Your Nickname

1. **Press and hold Enter/Menu** or **TONE/GROUP** for 2 seconds.
2. Enter your nickname and press Enter/Menu.
3. Press and hold Enter/Menu to confirm the setting and return to operating mode.

#### Channel Scan Feature

1. **Press and hold Enter/Menu** or **TONE/GROUP** for 2 seconds.
2. The channel scan feature is used when the radio receives the channel change signal, it stops and displays the current channel.
3. To turn on channel scan:
   - Press Enter/Menu or TONE/GROUP to start channel scan.
   - The radio chirsps for about 10 seconds while it is scanning.
   - If you miss someone, return to the previous channel.

#### Battery Level and Low Battery Alert

- When the battery level is low, the radio will chirs and then alert you to an incoming call.
- The receiver circuit stays open, so you can hear any noise or signal.

#### Using the Radio

- In order to get the most out of your new radio, please read this manual carefully.
- When using the remote microphone and the voice operated transmitter (VOX), you can operate the radio without touching it.
- The microphone must be inserted in the remote microphone jack.
- Do not insert any other objects into the jack.

#### Setting the Group Code

1. **Press and hold Monitor** or **Boost** for 2 seconds.
2. **Press** the code.
3. You can also select a Privacy Code from 1-142 for your group.

#### Voice Operated Transmitter (VOX)

- Your radio is equipped with a user-selectable Voice Operated Transmitter (VOX) that can be automatically controlled.
- Automatically changing channels when the radio chirps.
- The current channel is displayed on the LCD Display.
- All voice channels must have a GMRS license issued by the FCC.
- Note: Only tones 1-38 are standard across each other.

#### Setting the Group Mode

1. **Press** and **hold** Monitor or Boost for 2 seconds.
2. **Tone** or **Group** appears on the display.
3. You can select a Privacy Code from 1-142 for your group.
4. To call one person in your group without having to switch to Group mode.
5. To call everyone in your group, press **PTT** and **Boost**.

#### Using the Menu

- Use the radio in Standard (not Group) mode to access the menu.
- Press **Menu/Power** or **TONE/GROUP** to enter the menu.
- To turn on channel scan, press **Menu/Power** or **TONE/GROUP** for 2 seconds.

Protect your hearing.

When using any radio to listen to over-the-air broadcasts, the North American standard radio frequency exposure limit is set at a Specific Absorption Rate (SAR) of 1.6 watts/kg. Your radio complies with this standard.

The user of this product is responsible for ensuring that this product is used in a manner consistent with any applicable laws and local regulations. Use of this product is limited to the owner, and except as otherwise permitted by the applicable FCC/SAR regulations, this product may not be sold or transferred to another person.

The user of this product shall terminate and be of no further assistance to any use or term of the warranty if the Product is: (A) missing its label, (B) improperly altered or repaired, (C) improperly maintained, (D) improperly adjusted, (E) incorrectly programmed, (F) used for other than its intended purpose, (G) used with unapproved accessory items, (H) used with incompatible equipment, (I) used with non-certified accessories, or (J) used with accessories, batteries, or chargers not manufactured by Uniden.

The warranty is invalid if the Product is: (A) missing its label, (B) improperly altered or repaired, (C) improperly maintained, (D) improperly adjusted, (E) incorrectly programmed, (F) used for other than its intended purpose, (G) used with unapproved accessory items, (H) used with incompatible equipment, (I) used with non-certified accessories, or (J) used with accessories, batteries, or chargers not manufactured by Uniden.
