Congratulations on your purchase of the Uniden GMR635-2/GMR635-2CK General Mobile Radio Service (GMRS) two-way radio. This product is a lightweight, part-load portable device, and is intended for sports enthusiasts or anyone who enjoys outdoor activity. The product is not designed for emergency services use.

1. Charging/Use
   - The battery pack must be charged before using the radio. To charge, plug the charging cradle into a household AC outlet. The LED will illuminate while the battery pack is charging.
   - Note: Always make sure your battery pack is fully charged before operating your radio.
   - To turn OFF channel scanning:
     - Press and hold the \textit{CH/Scan} key, until the channel number displayed.
     - Press and hold the \textit{Call/Sel} key to turn the unit OFF.

   Adjusting the Volume
   - To increase the volume, press the \textit{Vol} key.
   - To decrease the volume, press the \textit{Vol} key while turning the radio ON again.

2. Key Lock
   - To avoid the risk of personal injury or damage:
     - Keypad Lock
     - Always make sure your battery pack is fully charged before operating your radio.
     - The selected tone will automatically be transmitted for a fixed length of time.

3. Channels
   - Channels 1-7 have an expectancy range of up to 6 miles. Channels 8-14 have an expectancy range of up to 6 miles.
   - To enter the Menu:
     - Press and hold the \textit{Call/Sel} key, until the \textit{Normal} mode number on the display will change as the radio switches to the normal mode.

4. Using the Radio
   - To talk to others using the radio:
     - Press and hold either the \textit{Ptt} or \textit{Call/Sel} key to turn the unit OFF, and the \textit{Call/Sel} key while turning ON the radio.

   - Note:
     - To avoid the risk of personal injury or damage:
       - Keypad Lock
       - Always make sure your battery pack is fully charged before operating your radio.

5. Battery Level and Low Battery Alert
   - This unit has a battery level meter on the display to indicate the battery level. Make sure to replace the battery pack before the meter indicates that the battery level has dropped below the low battery level.

6. FCC GMRS License
   - Your GMR635-2/GMR635-2CK radio is equipped with 5 selectable call tones that will be transmitted for a fixed length of time.

7. FCC Omni License
   - This product is not designed for emergency services use.

8. Programming
   - The following optional accessories may be used:
     - Keypad Lock
     - Always make sure your battery pack is fully charged before operating your radio.

9. Troubleshooting
   - If the keypad facing forward.
   - "Normal"
   - "Scan"
   - "Stop Scan"
   - "Mon"
   - "PTT"
   - "OFF"
   - "BEEP"
   - "NORMAL"
   - "Clear"
   - "End"
   - "Cancel"

Any adjustments to your radio must be made by a person with the proper training and authority to operate this unit. Your radio is set up for use in the United States and Canada. Any adjustments to your radio must be made by an authorized Uniden, or (F) installed or programmed by anyone other than an authorized Uniden service center for a fee and may result in your radio being rendered non-operational.

Under certain conditions, radios can interfere with unshielded electrical blasting caps. In some situations, this interference may result in a failure of the blasting caps to explode. Do not operate the radio in a blasting area. Always inform the local blasting operators before entering an area where blasting is being conducted. Operating Frequency UHF 462.5500 - 467.7125 MHz

To maintain compliance with FCC RF exposure requirements, the radio must be used only with accessories supplied or approved by Uniden.

Never change or replace anything in your radio except the batteries. Do not use the radio with a damaged or missing antenna. Use only the supplied or an approved antenna. Always hold the radio at least 2.4 inches (60 mm) away from your body when transmitting.

Care and Safety:
- Do not drop your radio.
- Do not expose your radio to rain or moisture.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not drop your radio or expose it to moisture.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).
- Do not place the battery into a microwave oven or dishwasher.
- Do not throw the battery into a fire or incinerator.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).

Care and Safety:
- Do not drop your radio.
- Do not expose your radio to rain or moisture.
- Do not use or store your radio in temperatures below 0°F (-18°C) or above 140°F (60°C).

Specifications:
- Channels: 15 (GMRS / 7 FRS)
- Operating Frequency: UHF 462.5500 - 467.7125 MHz
- Power Source: 4 AA Maha Batteries or NiMH Battery Pack
- Range: Channels 1-9: up to 9 miles Channels 10-22: up to 6 miles
- Battery Life: 18 Hours typ. - NiMH, 18 Hours typ. - Alkaline Batteries
- Dimensions: 5 x 3.4 x 2.9 inches
- Weight: 6.5 oz
- Housing: 15 Hour Sp. - NiMH Battery Pack

FCC Information:
- The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  1. This device may not cause harmful interference, and 2. This device must accept any interference, including interference that may cause undesired operation.

Warning:
- This device must be used in accordance with the instructions provided in this manual. Failure to comply with these instructions will void the warranty.

For Hand-held Operation, the radio should be held in your hand or the supplied belt-clip. To maintain compliance with FCC RF exposure requirements, the radio must be used only with accessories supplied or approved by Uniden.

FCC Emission Exposure:
- The radio is compliant with the FCC guidelines and these international standards:

FCC WARNING:
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, this radio transmitter can cause harmful interference to radio communications.

FCC regulations require that the user be given the following information as an accessory to this product.

Battery Life: 30 Hours typ. - (2) NiMH Battery Pack

Note:
- In the U.S., this equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. Other devices may cause interference if not used in accordance with the instructions provided in this manual. If interference is determined to be a problem, turn the equipment off and remove the batteries immediately.
