Congratulations on your purchase of the Uniden GMR855-2/GMR855-2CK (hereafter referred to as the "product") and the Uniden Home Improvement Series (hereafter referred to as the "series"). Use them in a sensible manner and with proper care and attention. This manual contains useful information that is essential for your safety. Please read the manual carefully and ensure that you understand the information contained before using the product. This product is designed to be used by children aged 14 years and older.

**Feature Overview**

The product is equipped with a range of features that enable it to be used for a variety of applications. These features include:

- **Advanced Features**: The product includes advanced features that enable it to be used for a variety of applications.
- **Instructional Material**: The product includes instructional material that enables it to be used for a variety of applications.
- **Other Features**: The product includes other features that enable it to be used for a variety of applications.

**User Instructions**

1. **Read the Manual**: Before using the product, please read the manual carefully and ensure that you understand the information contained before using the product.
2. **Follow the Instructions**: Follow the instructions contained in the manual carefully and ensure that you understand them before using the product.
3. **Use the Product Safely**: Use the product in a safe and sensible manner and with proper care and attention.
4. **Keep the Manual**: Keep the manual in a safe and accessible location.
5. **Compliance with Laws**: Ensure that you comply with all relevant laws and regulations.

**Technical Specifications**

- **Power Output**: The product has a power output of 1 Watt.
- **Frequency Range**: The product operates in a frequency range of 121.950 MHz to 122.950 MHz.
- **Channel Spacing**: The product has a channel spacing of 25 kHz.
- **Display**: The product has a display that shows the current channel number and the channel name.
- **Battery**: The product has a rechargeable battery that lasts for up to 16 hours when used.
- **Dimensions**: The product has dimensions of 11.8 x 6.5 x 2.5 inches.
- **Weight**: The product weighs 1.5 pounds.

**Manufacturer**

Uniden

**Supplier**: Uniden

**Contact Information**

For more information, please contact Uniden at 1-800-225-5322.

**Warranty**

The product is covered by a limited warranty for one year. Please refer to the warranty document for details.

**Specifications**

- **Key Beep on/off**: This feature allows you to turn the key beep on/off.
- **Battery Recharge Circuit**: This feature allows you to recharge the battery.
- **M 2-Way Radio**: This feature allows you to use the radio in two-way communication mode.

**Related Products**

- **GMR855-2**: This is a related product that is similar to the GMR855-2CK.
- **GMR855-2CK**: This is a related product that is similar to the GMR855-2.

**Additional Information**

- **Range May Vary**: The range of the product may vary depending on environmental and/or topographical conditions.
- **Maximum Range**: The maximum range of the product is up to 8 miles.
- **Power Boost Indicator**: This feature indicates when the power boost mode is being used.
- **Channel Indicator**: This feature indicates the current channel number.
- **Scan Indicator**: This feature indicates when the channel scan feature is being used.
- **Call Indicator**: This feature indicates when a call is being received.
- **Power Boost Feature**: This feature allows you to increase the power output of the radio.
- **Call Tone Feature**: This feature allows you to use call tones to communicate.
- **Keypad Lock Feature**: This feature locks the keypad to prevent accidental button presses.
- **Low Battery Alert**: This feature alerts you when the battery level is low.
- **Battery Level and Charge Indicator**: This feature indicates the battery level and charge status.
- **Monitor Mode Feature**: This feature allows you to enter monitor mode.
- **Roger Beep Feature**: This feature allows you to use the Roger Beep to confirm a transmission.
- **Menu Feature**: This feature allows you to access the product's advanced features through a menu system.

**Conclusion**

Congratulations on your purchase of the Uniden GMR855-2/GMR855-2CK! We hope that you find these instructions helpful and that you enjoy using the product for a long time to come.
Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

To clean the radio, use a soft cloth dampened with water. Do not use cleaners or solvents because they can harm the body of the radio. When cleaning the battery compartment, use only a dry, lint-free cloth to remove any moisture or dust. Do not use water or any other liquid to clean the radio.

It is up to the user to properly operate the radio. The user is responsible for any consequences of radiation exposure. The user should be aware that the radio is capable of transmitting frequencies that are not intended for public use.

Hazardous Environments: Under certain conditions, radios can interfere with the operation of unshielded electrical blasting caps. Never operate a radio in an area where blasting operations are taking place without the written permission of the blasting contractor. Always check for the presence of explosive caps before operating a radio in any hazardous environment. Always check with qualified technicians before using a radio in any hazardous environment.

Important: Evidence of original purchase is required for warranty service. 

To be safe and sure:

1. Never change or replace anything in your radio except the batteries.
2. Never allow your radio to be repaired by anyone other than a qualified technician.
3. Always check for the presence of explosive caps before operating a radio in any hazardous environment.
4. Always keep your radio in a dry place.
5. Always keep your radio in a safe place.
6. Always keep your radio in good working order.
7. Always keep your radio in a place where it can be heard.
8. Always keep your radio in a place where it can be seen.
9. Always keep your radio in a place where it can be reached.
10. Always keep your radio in a place where it can be used.

To maintain compliance with FCC RF exposure requirements, Body-worn operations are restricted to persons who have been trained on the use of the radio and the effects of radiation exposure. For hand-held operation, the radio should be held at least 2 inches from the user’s face. For head-mounted operation, the radio should be worn at least 2 inches from the user’s head. The use of accessories that shield the body from the radio or mask the radio’s effects on the body is not recommended. The use of accessories that mask the radio’s effects on the body is not recommended.

STATEMENT OF REMEDY: In the event that the product does not conform to the warranty at any time during the warranty period, and the party responsible for warranty service (Uniden or your local Uniden dealer) determines that the product is defective, the party responsible for warranty service (Uniden or your local Uniden dealer) will repair or replace the defective product.

For more information about RF exposure, please visit the FCC web site at www.fcc.gov.
