Congratulations on your purchase of the Uniden GMRS750 Mobile/Walkie Talkie!

This product is lightweight, powerful and reliable. It is an excellent place to start for the beginner or for the experienced user. This compact, slim line design is equipped with all the same features as larger, bulkier models.

BATTERY LEVEL AND LOW BATTERY ALERT

This product has a 4 AA alkaline battery 2 alkaline batteries are used. We recommend using high quality alkaline batteries.

1) Install the 4 AA alkaline batteries:
- Make sure your radio is OFF.
- Open the battery cover by pulling on the cover or the battery latch. Then, remove the batteries from the unit.
- Insert the batteries (positive side up) into the battery compartment as shown.
- Install the battery cover into the radio and it will click.
- To make sure that the battery pack is secure after installation, press on the side of the unit with your thumb.

The radio has a low battery alert.

- When the batteries are low, there will be a low battery alert.
- The battery alert will appear on the display.
- The battery alert will disappear when the batteries are replaced and the radio has power.

Choosing a Channel

To access the advanced features of the GMRS750 radio, you can enter into the Menu by pressing the keypad.

1) To enter the Menu, press the select/ key.
2) Additional presses of the select/ key will allow you to move to the next level of the Menu.
3) Exit the Menu.

Note: Only the Key Lock menu is available when in the Weather Broadcast mode.

Choosing a Channel

To access the advanced features of the GMRS750 radio, you can enter into the Menu by pressing the keypad.

1) To enter the Menu, press the select/ key.
2) Additional presses of the select/ key will allow you to move to the next level of the Menu.
3) Exit the Menu.

If you have a contact saved in the Channel and CTCSS code.

Changing the VOX level:

4) Select the VOX level (off, 1-4) will be indicated. Level 1-4 will indicate normal VOX level, while levels 1-4 will indicate normal VOX level.

When the VOX feature is enabled, the icon appears on the display. The current VOX level is indicated on the CTCSS level meter on the front of the radio. Use 4 for <x=> 4 seconds, ex= in extremely quiet environments, and use a lower level to reduce enhanced VOX level.

Transmitting a Call Tone

Choosing a Channel

Transmitting a Call Tone

When a call is received at the GMRS750 radio, the call will be transmitted for a fixed length of time.

- The radio returns to the “Normal” mode.
- The icon will flash. Replace the alkaline batteries in the unit are low, the battery level meter icon will appear on the display.

### System Requirements

- Channels 1-7, 15-22 up to 5 miles (PTT mode) and 5 miles (Broadcast mode)
- Channels 8-14 up to 2 miles
- Channels 15 GMRS / 7 FRS

---

### Compliance Information

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  1. This device may not cause harmful interference.
  2. This device must accept any interference received, including interference that may cause undesired operation.

- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  1. Reorient or relocate the receiving antenna.
  2. Increase the separation between the equipment and receiver.
  3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  4. Consult the dealer or an experienced radio/TV technician for help.

- Any unauthorized changes or modifications to this unit voids the user’s warranty rights provided by the Federal Communications Commission.
