INTRODUCTION

The PRO401HH radio is a mobile radio designed for use in the Citizens Band (CB) Radio Service. It will operate on any of the 40 AM frequencies authorized by the Federal Communications Commission (FCC). Your radio features a superheterodyne circuit with Phase Locked Loop techniques to assure precise frequency control.

FEATURES

► 40 AM channels
► Condenser microphone.
► Ceramic filter: Delivers greater selectivity and reduces adjacent channel interference.
► AGC (Automatic Gain Control) for a constant sound level.
► Automatic modulation control for a constant audio transmit modulation level.
► Low distortion IC audio circuit.
► Automatic noise limiter to reduce pulse noise.
► TX Power select slide switch (HI = 4W; LOW = 1W)
► Antenna with BNC connector.
► External speaker jack and external MIC jack
► Jack for external power source and battery charger.
► Rechargeable (9 AA Ni-MH) or Alkaline (9 AA) batteries
► Internal battery select switch (alkaline or rechargeable)

SAFETY NOTICE

► Do not expose the PRO401HH to water or extreme temperatures.
► Do not leave batteries installed over a long period of time as leakage may occur and cause damage to the radio.
► Never use different batteries from the ones suggested.
Never use harsh chemicals to clean this radio. Use a damp soft cloth.

UNIDEN CONTACT INFORMATION

You can get answers 24/7 at our website: www.uniden.com.

INCLUDED IN YOUR PACKAGE

If any of these items are missing or damaged, immediately contact your place of purchase or Uniden's Parts Department.

PRO401HH Radio

Antenna

DC Power Cable

Other printed materials

Not shown: Wrist Strap
1  **Belt Clip**

2  **Battery Compartment**

   *NOTE: A switch inside the compartment lets you select rechargeable or Alkaline batteries.*

3  **Channel UP/DOWN**
   Selects which channel the radio will transmit or receive on.

4  **Push to Talk**
   Allows you to transmit.
5 **Antenna Jack**
Connect the detachable antenna to this jack.

6 **Squelch knob**
Adjusts the level at which the radio squelches or suppresses weak radio signals. To filter out weaker signals and background noise, turn the knob clockwise to increase the squelch level. To decrease the squelch level so you can hear weaker radio signals, turn the knob counter-clockwise.

7 **Volume Control**
Powers on the radio and adjusts the volume.

8 **Microphone**
Speak into the microphone when transmitting.

9 **Wrist Strap Slot**
Connect the wrist strap to the belt clip.

10 **Speaker Jack**
Connects to an external speaker (not included). The internal speaker is disabled.

11 **Microphone Jack**
Connects to an external microphone (not included).

12 **13.8 V DC External Power Jack**
Provides power to the unit. You can use external power sources such as a car battery to power the unit and to recharge the Ni-MH rechargeable batteries.

13 **Transmit Power Switch (HI/LOW)**
Select a power output level for transmission.

**NOTE:** FCC rules reserve Channel 9 for motorist assistance and other emergency communications. Channel 9 should only be used in situations where there is immediate danger to the safety of individuals or the protection of property.

*Make sure you have read and understood part 95 of the FCC rules and regulations before using the transmitter.*
SET UP

INSTALL ANTENNA

Install the included rubber antenna onto the radio.

*The PRO401HH can also use any type of 50 Ω / 27 MHz band antenna. Although a telescoping antenna might provide better transmission and receiving, it is not as compact or easy to use as the antenna included in the package.*

CONNECTING TO POWER

Your PRO401HH can operate on DC power or batteries.

**DC Power**

1. Plug DC power cable into the PRO401HH.
2. Plug the other end into your vehicle's cigarette lighter/DC power conversion plug.
3. The red power LED is steady on when the unit is connected to external power (not batteries).

**Battery Power**

You can use either 9 non-rechargeable alkaline batteries or 9 rechargeable Ni-MH batteries with this unit.

1. Open battery cover.
2. Set the internal switch to match the battery type you are using [either alkaline or rechargeable (Ni-MH) batteries].
3. Insert the 9 batteries according to the directions indicated inside the battery compartment.
4. Close battery cover.

**LED Display**

The LED display turns off after 1.5 seconds to conserve battery power.
It will also turn off 1.5 seconds after you close Squelch.
To see the display again, open Squelch.

_Low Power Indication_

The red LED blinks when battery power is low. Replace/recharge the batteries or connect to a power source.

---

## OPERATION AND MAINTENANCE

### BASIC OPERATION

<table>
<thead>
<tr>
<th>Turning the radio on</th>
<th>Turn the <strong>Volume</strong> knob clockwise until it clicks and the 7 segment LED comes on.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Turning the radio off</td>
<td>Turn the <strong>Volume</strong> knob counter-clockwise until it clicks and the 7 segment LED turns off.</td>
</tr>
<tr>
<td>Selecting a channel</td>
<td>Press the Channel UP or DOWN button on the side to move up or down the channel list.</td>
</tr>
<tr>
<td>Changing the volume</td>
<td>Turn the <strong>Volume</strong> knob clockwise to increase the volume; turn it counter-clockwise to decrease the volume.</td>
</tr>
</tbody>
</table>
| Transmitting         | - Tune the radio to the channel you want to transmit on, and listen to make sure the channel is clear.  
                        | - Press and hold the **PTT** button.  
                        | - Hold the microphone about 2 inches away from your mouth and speak in a normal voice.  
                        | - Release the **PTT** button to listen for a response. |

*NOTE: Make sure you have read and understood part 95 of the FCC rules and regulations before using the transmitter.*

### CB COMMUNICATION CODES

The “10” code allows you to communicate easier in noisy environments. The following table lists some of the most common codes and their meaning.
<table>
<thead>
<tr>
<th>CODE</th>
<th>MEANING</th>
</tr>
</thead>
<tbody>
<tr>
<td>10-1</td>
<td>Receiving poorly</td>
</tr>
<tr>
<td>10-2</td>
<td>Receiving well</td>
</tr>
<tr>
<td>10-3</td>
<td>Stop transmitting</td>
</tr>
<tr>
<td>10-4</td>
<td>OK - Understood</td>
</tr>
<tr>
<td>10-6</td>
<td>Busy - Stand By</td>
</tr>
<tr>
<td>10-7</td>
<td>Out of service - Leaving air</td>
</tr>
<tr>
<td>10-8</td>
<td>In service - Subject to call</td>
</tr>
<tr>
<td>10-9</td>
<td>Please repeat</td>
</tr>
<tr>
<td>10-10</td>
<td>Transmission completed - Standing by</td>
</tr>
<tr>
<td>10-13</td>
<td>Road advice - Weather conditions</td>
</tr>
<tr>
<td>10-20</td>
<td>What is your location?</td>
</tr>
<tr>
<td>10-33</td>
<td>Emergency traffic</td>
</tr>
<tr>
<td>10-36</td>
<td>Exact time</td>
</tr>
<tr>
<td>10-41</td>
<td>Switch to channel</td>
</tr>
<tr>
<td>10-62</td>
<td>Cannot receive - use phone</td>
</tr>
<tr>
<td>10-70</td>
<td>Fire at __________</td>
</tr>
<tr>
<td>10-200</td>
<td>Police needed at __________</td>
</tr>
</tbody>
</table>

**MAINTENANCE**

Clean the unit with a damp cloth only; never use harsh chemicals.

**TROUBLESHOOTING**

If your radio is not performing to your expectations, please try these simple steps. If these steps don’t solve your problem, visit the Uniden website (www.uniden.com) for troubleshooting and FAQ information.
**PROBLEM:** Radio won’t turn on (no power)

- Check the radio’s power cord and all connections.
- Check the fuse in the radio’s power cord.
- Check your vehicle’s electrical system.

**PROBLEM:** Poor reception

- Adjust the squelch level.
- Check the antenna, cable and connectors.

**PROBLEM:** Background noise

- Adjust the squelch level.

**PROBLEM:** Weak transmission

- Check the antenna, cable and connectors.
- Check the antenna grounding.
- Check for corrosion on the connectors.

**SERVICE AND REPAIR INFORMATION**

- Save your purchase receipt for proof of warranty.
- When ordering parts, it is important to specify the correct model number of this radio (PRO401HH).
- It is the user’s responsibility to make sure the radio is operating in accordance with the FCC Citizens Radio Service regulations at all times.

**TRANSMITTER**

| Power Output | 4 Watts @13.8 VDC |
| Modulation | 85% - 95% |
| Freq. Response | 400 Hz – 2.5 KHz |
| Output Impedance | 50 ohms, unbalanced |

**RECEIVER**

| Sensitivity | <1 μV for 10 dB; (S + N) /N typical |
| Selectivity | 6 dB @ 7kHz, 70 dB @ 10kHz typical |
| I.F. Frequency | Double Conversion Superheterodyne 1st - 10.695 MHz 2nd - 455 kHz |
| Automatic Gain Control (AGC) | less than 10dB change in audio output for inputs from 10 to 50,000 microvolts |
| Squelch | Adjustable; threshold less than1μV |
| Audio Output Power | 0.5 watts max. @ 8 ohms |
| Freq. Response | 300 to 2000 Hz |
| Distortion | less than 8% at 1KHz |
| Internal Speaker | 8 ohms, 1 watts |

**FCC PART 15 & IC COMPLIANCE**

FCC Compliance Statement: This device complies with Part 15 of the FCC rules. Operation is subjected to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that
may cause undesired operation.

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

Avis de conformité à la FCC : Ce dispositif a été testé et s’avère conforme à l’article 15 des règlements de la Commission fédérale des communications (FCC). Ce dispositif est soumis aux conditions suivantes: 1) Ce dispositif ne doit pas causer d’interférences nuisibles et; 2) Il doit pouvoir supporter les parasites qu’il reçoit, incluant les parasites pouvant nuire à son fonctionnement.

Cet appareil est conforme aux normes RSS exemptes de licences d’Industrie Canada. Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas causer d’interférences nuisibles et (2), il doit pouvoir accepter les interférences, incluant celles pouvant nuire à son fonctionnement normal.

Tout changement ou modification non approuvé expressément par la partie responsable pourrait annuler le droit à l’utilisateur de faire fonctionner cet équipement.
ONE-YEAR LIMITED WARRANTY

WARRANTOR: UNIDEN AMERICA CORPORATION (“Uniden”)

ELEMENTS OF WARRANTY: Uniden warrants, for one year, to the original retail owner, this Uniden Product to be free from defects in materials and craftsmanship with only the limitations or exclusions set out below.

WARRANTY DURATION: This warranty to the original user shall terminate and be of no further effect 12 months after the date of original retail sale. The warranty is invalid if the Product is (A) damaged or not maintained as reasonable or necessary, (B) modified, altered, or used as part of any conversion kits, subassemblies, or any configurations not sold by Uniden, (C) improperly installed, (D) serviced or repaired by someone other than an authorized Uniden service center for a defect or malfunction covered by this warranty, (E) used in any conjunction with equipment or parts or as part of any system not manufactured by Uniden, or (F) installed or programmed by anyone other than as detailed by the owner’s manual for this product.

STATEMENT OF REMEDY: In the event that the product does not conform to this warranty at any time while this warranty is in effect, warrantor will either, at its option, repair or replace the defective unit and return it to you without charge for parts, service, or any other cost (except shipping and handling) incurred by warrantor or its representatives in connection with the performance of this warranty. Warrantor, at its option, may replace the unit with a new or refurbished unit. THE LIMITED WARRANTY SET FORTH ABOVE IS THE SOLE AND ENTIRE WARRANTY PERTAINING TO THE PRODUCT AND IS IN LIEU OF AND EXCLUDES ALL OTHER WARRANTIES OF ANY NATURE WHATSOEVER, WHETHER EXPRESS, IMPLIED OR ARISING BY OPERATION OF LAW, INCLUDING, BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THIS WARRANTY DOES NOT COVER OR PROVIDE FOR THE REIMBURSEMENT OR PAYMENT OF INCIDENTAL OR CONSEQUENTIAL DAMAGES. Some states do not allow this exclusion or limitation of incidental or consequential damages so the above limitation or exclusion may not apply to you.

LEGAL REMEDIES: This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This warranty is void outside the United States of America.
PROCEDURE FOR OBTAINING PERFORMANCE OF WARRANTY: If, after following the instructions in the owner’s manual you are certain that the Product is defective, pack the Product carefully (preferably in its original packaging). The Product should include all parts and accessories originally packaged with the Product. Include evidence of original purchase and a note describing the defect that has caused you to return it. The product should be shipped freight prepaid, by traceable means, to warrantor at:
