29. **LCD Backlight**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

30. **Battery Charging**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

31. **Flashlight**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

32. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

33. **Battery Level Meter**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

34. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

35. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

36. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

37. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

38. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

39. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

40. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

41. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

42. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

43. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

44. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

45. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

46. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

47. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

48. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

49. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

50. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

51. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

52. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

53. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

54. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.

55. **Battery Charging Cradle**
    - The radio will additionally remind you of a missed call by vibrating every minute after the call for 3 minutes.
FCC PART 15 COMPLIANCE

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

Warning: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF EXPOSURE

This device was evaluated for body-worn operations with the supplied belt-clip accessory. (All necessary accessories are included in the package; any additional or optional accessories are not required for compliance with these guidelines.) The user should ensure that the accessory (e.g., belt-clip) approved by the manufacturer should be avoided as these might not comply with FCC RF exposure guidelines.

Body-Worn Operation

This device was evaluated for body-worn operations with the supplied belt-clip accessory. (All necessary accessories are included in the package; any additional or optional accessories are not required for compliance with these guidelines.) The user should ensure that the accessory (e.g., belt-clip) approved by the manufacturer should be avoided as these might not comply with FCC RF exposure guidelines.
