Congratulations on your purchase of the Uniden TR620 radio. This product is a lightweight, palm-sized radio. Use at sporting events to stay in contact with family and friends, hiking, skiing, outdoors, or in a neighborhood watch for vital communication.

Package Contents
Your package contains the TR620 radio, the reference guide and a belt clip. You will need to purchase 3 AAA alkaline batteries in order to operate the unit.

FCC GMRS License
The TR620 radio operates on the General Mobile Radio Service (GMRS) frequencies which require a Federal Communication Commission license to operate. For licensing information and application forms, visit the FCC on-line at www.wsb.fcc.gov or call the FCC hotline at 1-800-418-2185. If you have any questions you can contact the FCC direct at 1-888-225-5322.

Install the Batteries
To install the batteries:
1) Make sure your radio is OFF.
2) Remove the battery compartment door by pressing on and sliding the compartment door, allowing the door to be removed.
3) Install 3 AAA Alkaline batteries (not included) into the compartment. Be certain to follow the + and – symbols in the compartment.
4) Replace the battery compartment door by sliding the door into place.

Using the Radio
In order to get the most out of your new radio, read this reference guide completely before attempting to operate the radio.

Radio Menu
Press and hold the Call button while the Scan is paused on that channel until the channel is clear. Then after pressing the Call button while the unit is pausing on a channel, scanning will resume.

Choosing a Channel
Your TR620 radio has 22 channels you can use to talk to others. In order to speak to someone, each of you must be set to the same channel.

Choosing a Channel
To choose a channel:
Press the channel/scan + or – keys to increase or decrease the channel number displayed.

Channel Scan Feature
Your TR620 radio has a channel Scan feature that allows you to easily Scan all 22 channels. When an active channel is detected, the unit will pause on that channel until the channel is clear. Then after a 2 second delay, the unit will continue scanning. Pressing PTT button while the Scan is paused on a channel will allow you to transmit on that channel.

To turn ON channel scanning:
Press and hold either the channel/scan + or – key.

To turn OFF channel scanning:
Press either the channel/scan + or – key.

Monitor Mode Feature
Your TR620 has a unique circuit designed to dramatically extend the life of the batteries. If there is no transmission or an incoming call within 2 seconds, your radio switches to the Power Save mode. The radio is still able to receive transmissions in this mode.

To turn ON this beep:
Press the volume/mon + or – key.
The tone will automatically be transmitted for a fixed period of time.

To turn OFF this beep:
Press and hold the volume/mon + or – key while turning ON the radio.

To turn ON monitor mode:
Press and hold the volume/mon + or – key.
The rx icon will blink.
To turn OFF monitor mode:
Press the volume/mon + or – key.
The rx icon will disappear.

Make sure your radio is OFF.

To install the batteries:
1) Make sure your radio is OFF.
2) Remove the battery compartment door by pressing on and sliding the compartment door, allowing the door to be removed.
3) Install 3 AAA Alkaline batteries (not included) into the compartment. Be certain to follow the + and – symbols in the compartment.
4) Replace the battery compartment door by sliding the door into place.

5) Press and hold the Call button while the unit is pausing on a channel.

6) Press and hold the G key to turn the radio ON.

7) To change the volume level press the volume/mon + or – key to increase or decrease the volume level.

8) Press and hold the G key to turn the radio OFF.

Choosing a Channel
Your TR620 radio allows you to listen in for weak signals on the current channel at the press of a key.

To turn ON monitor mode:
Press and hold the volume/mon + or – key.
The rx icon will blink.
To turn OFF monitor mode:
Press the volume/mon + or – key.
The rx icon will disappear.

Choosing a Channel
To choose a channel:
Press the channel/scan + or – key.
The channel number on the display or the monitor will rapidly cycle through the channels.

To turn OFF channel scanning:
Press either the channel/scan + or – key.

To turn ON channel scanning:
Press and hold either the channel/scan + or – key.

Monitor Mode Feature
Your TR620 has a unique circuit designed to dramatically extend the life of the batteries. If there is no transmission or an incoming call within 2 seconds, your radio switches to the Power Save mode. The radio is still able to receive transmissions in this mode.

To turn OFF this beep:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Important: Changes or modifications to this unit not expressly approved by Uniden could void your authority to operate this unit. Your radio is set up to transmit a regulated signal on an assigned frequency. Any adjustment to your radio must be made by Uniden in order to maintain compliance with FCC Rules. Your radio might cause TV or radio interference even when it is operating properly. To determine whether your radio is causing the interference, turn it off. If the interference goes away, your radio is causing the interference. Do not attempt to service this radio by anyone other than an authorized Uniden service center. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for a replacement antenna.

FCC INFORMATION
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RULES EXPOSURE INFORMATION

This radio transmitter to insure safe operation. Body-worn Operation
The use of typical body-worn operations using the supplied belt-clip, which typically provides a separation of 1 inch from the body. To maintain compliance with FCC RF exposure requirements, Body-worn operations are restricted to the use of the supplied belt-clip. For hand-held operation, the radio should be held 1 inch from the body.

For more information about RF exposure, please visit the FCC web site at www.fcc.gov.

CARE AND SAFETY
- Do not use the radio in hazardous locations, explosions or fires may result. Do not operate the radio near unshielded electrical blasting caps.
- Do not operate the radio in hazardous environments. Explosion or fire may result. Do not operate the radio near unshielded electrical blasting caps.
- Do not operate the radio in hazardous environments. Explosion or fire may result. Do not operate the radio near unshielded electrical blasting caps.

UNIMMERSE ELECTRODES
- Minimize potential water damage. Leave the battery compartment cover off overnight to ensure complete drying. Do not use the radio until the unit is completely dry.

PROBLEM OR APPEARANCE: THIS PRODUCT IS THE SOLE AND ENTIRE WARRANTY PERKING TO THE PRODUCT AND IS IN LIEU OF AND INCLUDES ALL OTHER WARRANTIES OF ANY NATURE WHATSOEVER, WHETHER EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THIS WARRANTY DOES NOT COVER OR PROVIDE FOR THE REIMBURSEMENT OR OVERPAYMENT OF INCIDENTAL OR CONSEQUENTIAL DAMAGES. Some states do not allow the exclusion or limitation of incidental or consequential damages so the above limitation or exclusion may not apply to you. To the extent permitted by LAW, LEGAL REMEDIES. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This warranty is void outside the United States of America. PROCEDURE FOR OBTAINING PERFORMANCE OF WARRANTY: If after following the instructions in the owner’s manual you are certain that the Product is defective (preferably in its original packaging). The Product should include all parts and accessories originally packaged with the Product. Include evidence of purchase and a note describing the defect that has caused you to return the Product. The Product will be shipped prepaid, by traceable means, to:
